

## How to Create a Fotobabble

Fotobabble lets you upload a photo and then record on the picture. You can then share your narrated photo.

1. Go to [fotobabble.com](http://fotobabble.com) and click on Sign up. Create a username and password. If students will be using this sign in use a generic username and password.
2. If using a computer click on **Create a Fotobabble** and choose **Browse** to navigate to your photo. Select your photo and click Open. Once the link of your photo is uploaded click **Create**. You can also choose to paste the URL of an image. If you are posting these to your website please consider copyright.

3. In the next window you can choose a theme to frame your photo and record your voice. A small message will pop up from fotobabble requesting access to your microphone – choose **Allow**.
4. Record your voice, title your fotobabble, select Public or Private and choose **Save**.
5. You can share your Fotobabble through Twitter; Facebook; etc., paste the link into an email or instant message or embed the Fotobabble into your webpage.
- 6.. To view your created Fotobabbles click on My Fotobabbles.

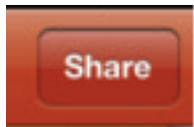

## Fotobabble on the iPad

1. You can also use Fotobabble on an iPad. Click on the Fotobabble app. Sign in with your online username and password. Once you sign in on the iPad it will keep you signed in.
2. Choose to either Take a New Photo or choose one from your iPad Film Roll.

3. Click on the Microphone to record your voice.

4. Click on Share.

5. Scroll down to Sharing, choose Email. In the next screen type the email address, a subject and if you want add text to the body of the email. Click Send.
